SCHOOL

REMEDIATION MAINTENANCE ENRICHMENT

Successful “START” Program

(Pre Kindergarten, Kindergarten, First Grade)

We believe that a child’s ultimate success in school depends on the strength of his educational groundwork. We offer testing and assessment, planned individual programs and follow through to establish a successful learning foundation.

Math (K-8)

Latest manipulatives allow your child to see, touch and understand math concepts. This visual hands-on approach results in new understanding.

Reading/English Skills (K-8)

These skills are taught according to each child’s learning style. We encourage a love for reading and work at immersing each child in the joys of literature and research, while teaching basic grammar and interpretation.

**Summer School is a wonderful opportunity to provide academic assistance and/or enrichment without the grind of a long day in class.
It’s the perfect solution!**
